

CORPORATE ● PROFILE

The Enhance Group comprises three separate entities:

FSP No. 3441

FSP No. 45638

A Division of
Enhance IFA

Our Client Value Proposition

We offer our clients a unique range of skills, experience and services, ranging from Financial, Investment, Estate & Retirement Planning, through Enhance IFA, to full discretion Model Portfolio construction & management, through Enhance IFA Solutions, and our in-house, proprietary software and planning tools, through Enhance Investor.

Through our close relationships with the Financial Regulators, we are continually raising the bar and setting new standards in terms of our Client Advice and Communication processes, to the point where we can justifiably claim to be a model financial advisory practice.

We have elected to invoke the principles inherent in partnerships and, where we feel that we do not have the necessary levels of skill or experience, we partner with some of the most respected entities in the financial services and investment industry.

Please visit our websites or contact us directly to get more information and insights into our partnership philosophies and our business model.
